FJORDFIESTA

About Fjordfiesta

Architect Pål Lunder founded Fjordfiesta in 2004, wishing to develop and reconnect with the Scandinavian design heritage. The Norwegian design brand is passionate about collaborating with new designers, and proud to renew classic gems from the Norwegian design vault.

Committed to tackling our modern day's ethical and environmental challenges, Fjordfiesta is hands-on in every part of the chain – from design and manufacture to delivery. The furniture is made at Fjordfiesta's factory in Dokka, Norway, where high-quality craftsmanship and cutting-edge technology ensure objects that last a lifetime and beyond.

Projects

chairs at Juvet Land-
scape Hotel in Valldal,
Norway.

Nothing pleases us more than seeing our furniture in new, exciting contexts. Fjordfiesta regularly collaborates with architects and interior architects on various projects, big and small, all around the world.

Our timeless, high-quality collections are well suited for hospitality and commercial spaces, made to withstand the physical wear and tear in busy spaces. The Scandinavian aesthetic that our furniture is known for – elegant, rational and solid all at once – blends into an array of styles with great ease, adding a subtle touch of quality and craftsmanship to the surroundings.

Our projects range from restaurants, hotels and cafés to cabins, exhibitions and showrooms.

The Sverre Fehn Collection

In 2022, Fjordfiesta launched a selection of furniture by esteemed Norwegian architect Sverre Fehn (1924–2009). The Pritzker Prize-winner made several furniture throughout his career, tailored specifically to individual houses and pavilions. Now, for the first time, a curated selection is available to a wider audience.

The Sverre Fehn Venezia 01 armchair, the Sverre Fehn Schreiner 01 dining chair, the Sverre Fehn Norrköping 01 stool and the Sverre Fehn Norrköping 02 table are carefully constructed objects, reflecting Fehn's rational and poetic approach to architecture. The wooden furniture is manufactured at Fjordfiesta's factory in Dokka, made from Norwegian pine sourced just hours away. The vegetable-tanned leather details are delivered by Tärnsjö Garveri in Sweden, using hides from local farms.

The Sverre Fehn Collection is developed in close collaboration with Sverre Fehn's family and the Fehn administration, Fehn Forvaltning. They have kept a close eye on every step of the process, ensuring that the end result is true to Sverre Fehn's spirit.

The Sverre Fehn Collection by Fjordfiesta – a selection of the Norwegian Pritzker Prize-winning architect Sverre Fehn's furniture, made available to a wider audience for the first time.

The Scandi Lux Cushions

The Scandi Lux Cushions are the latest addition to Fjordfiesta's much-loved Scandia Collection, dressing up designer Hans Brattrud's classic armchairs from 1959. Launched at Designers' Saturday in Oslo in September 2021, the cushions are tailored to our Scandia Nett and Scandia Senior lounge chairs. The Senior version, complementing the chair's high back, comes with an added headrest for that extra touch of comfort.

The Scandi Lux Cushions are designed by esteemed Norwegian studio Anderssen & Voll. The cushions are elegant, clean-cut and comfortable, adding a contemporary touch to the Norwegian furniture classics. The cushions are available in soft leather, wool and/or linen, all-natural materials that age beautifully.

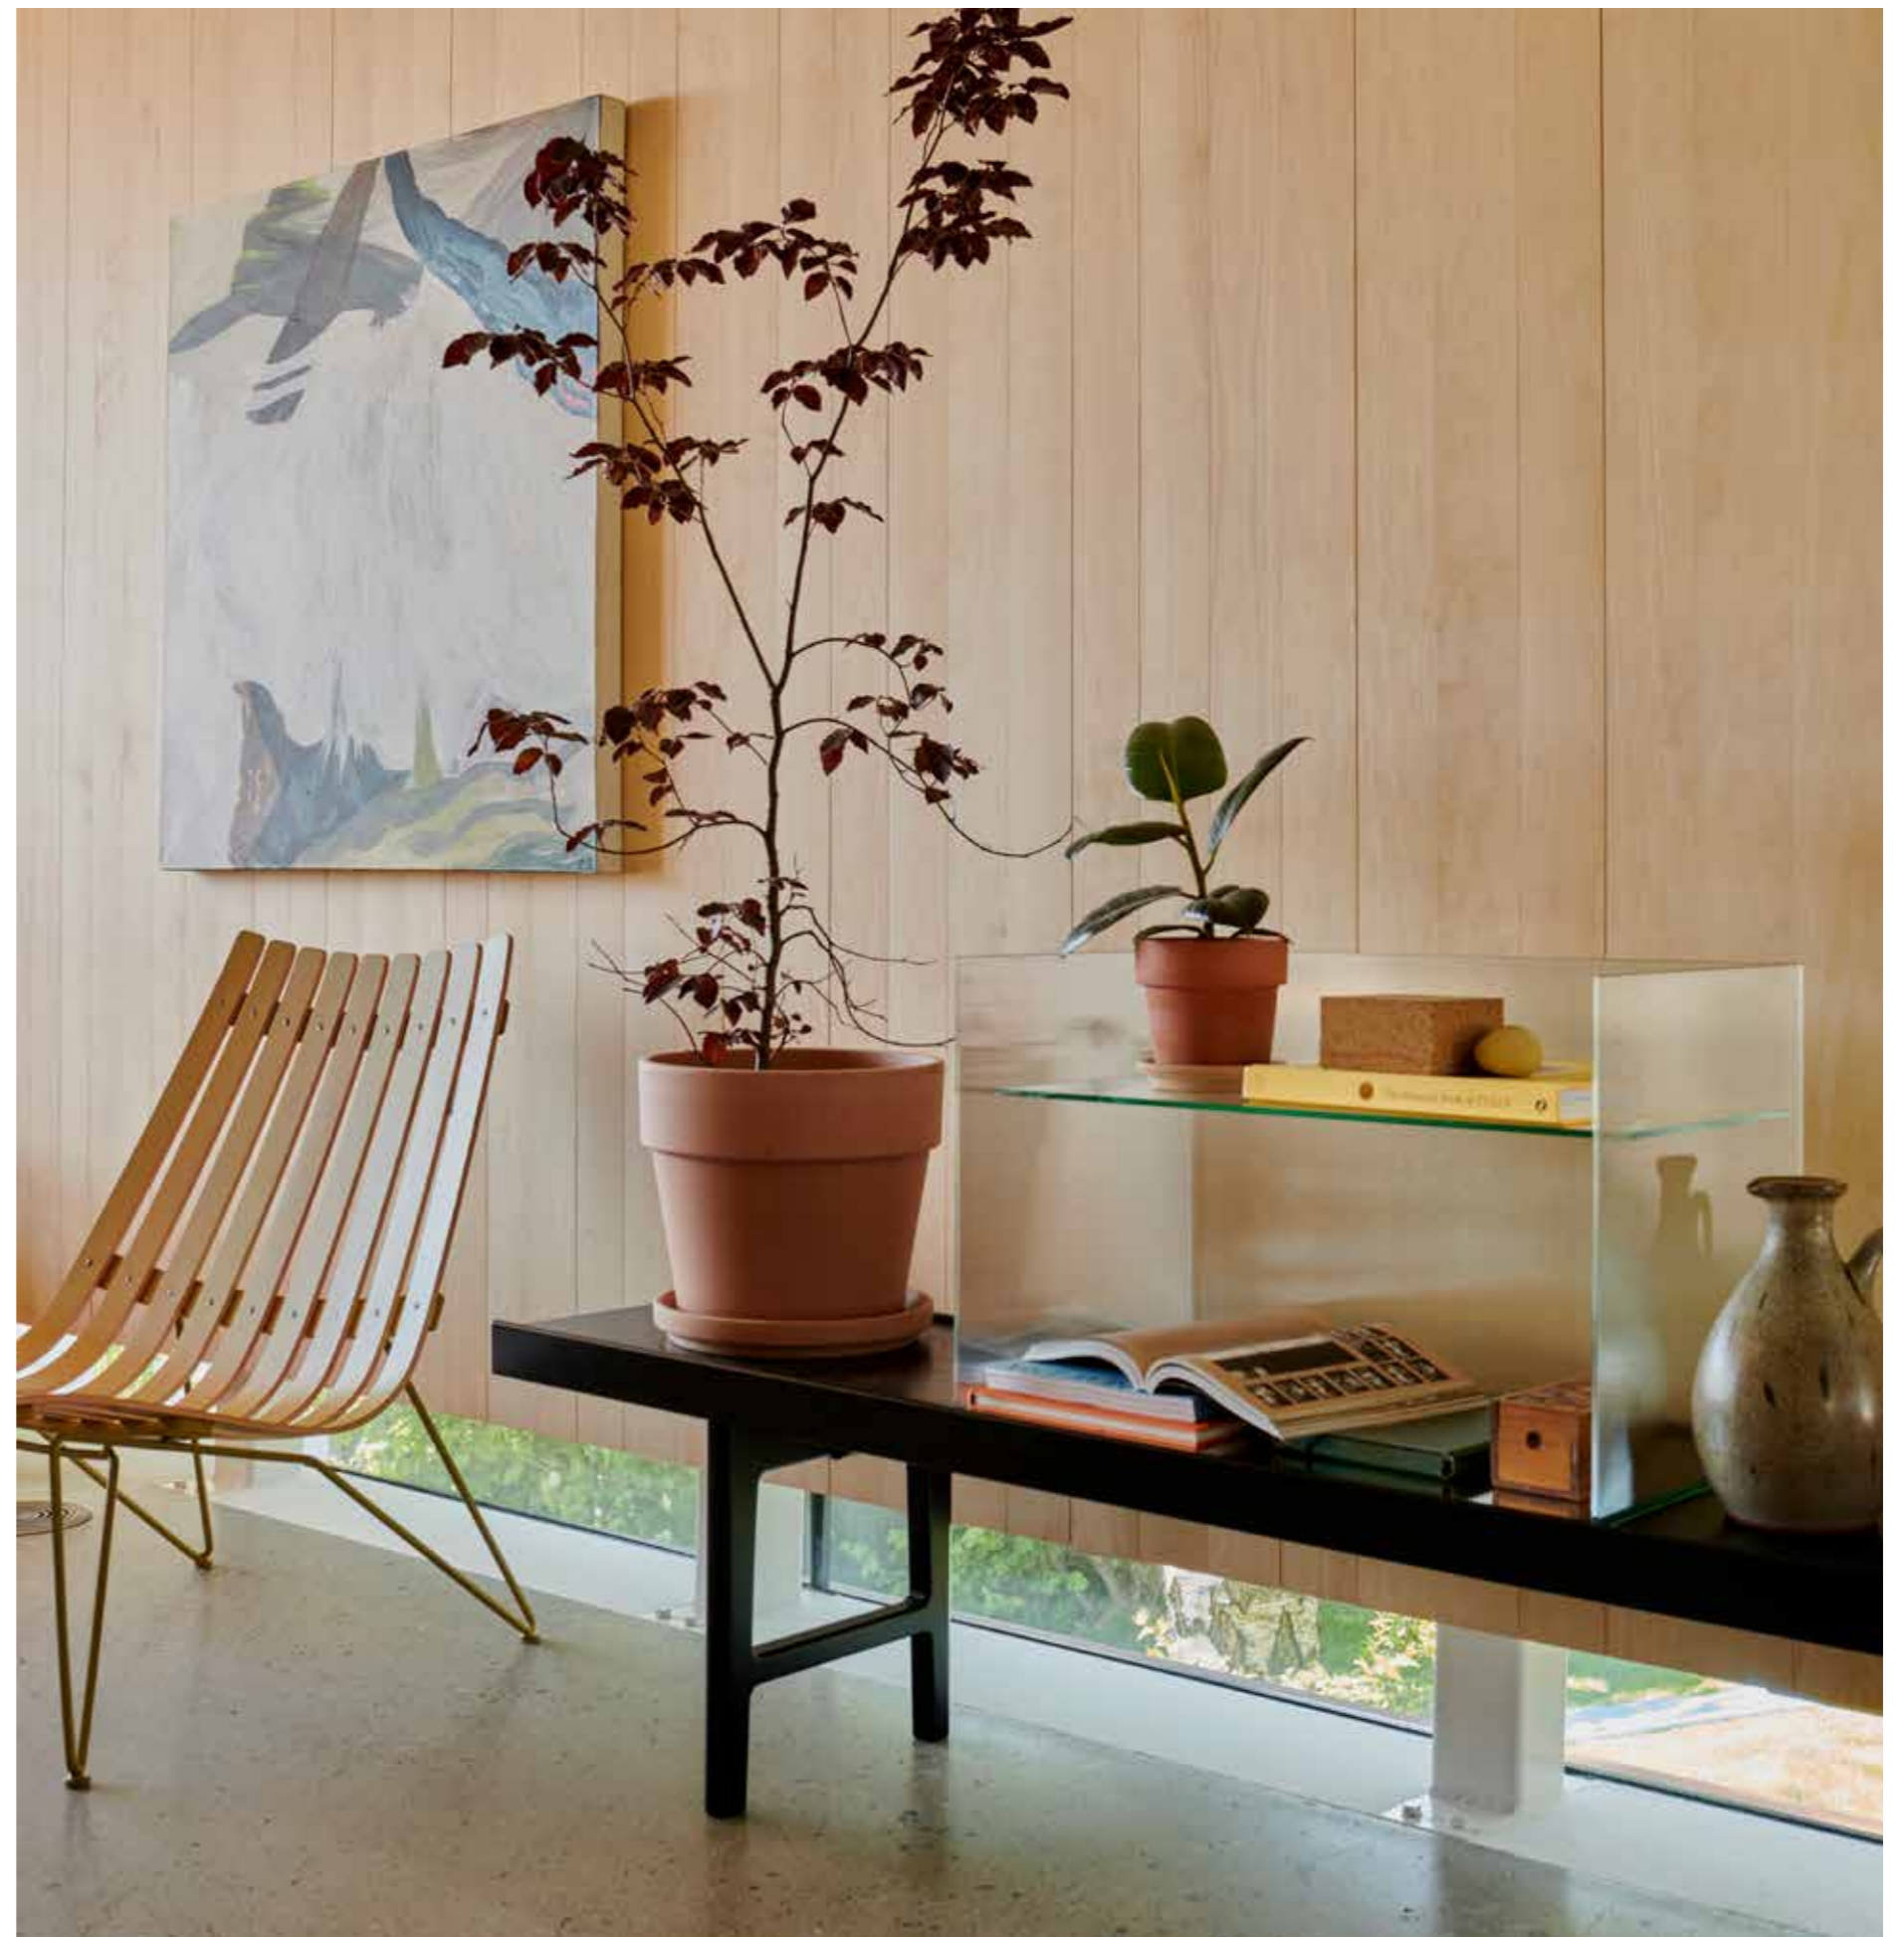

The Scandi Lux Cushions are designed by Anderssen & Voll, dressing up Fjordfiesta's Scandia lounge chairs by Hans Brattrud.
